

# The perfect visit!

This assignment requires you to work in teams of two or three people. You are going to plan the perfect visit to a city in a country where they speak English as their first language. At the end of this period you will present your plans for the rest of the class with the help of a Power Point presentation.

This is how you proceed:

1. Choose a city where you would like to go!
2. Find **basic facts** about the city that you include in your presentation. The following information **must** be included:

- **the name** of the city
- show on a **map** exactly where the city is situated
- tell the audience **why** you have chosen this city
- **population**
- **climate**
- popular **tourist attractions/activities** in the city
- the history behind **famous monuments** or other places of interest
- make at least one **comparison** (*jämförelse*) with Piteå/Sweden

## 3. Copying and pasting is not allowed.

- rewrite the information so that the text is “your own”
- avoid words that you do not know the meaning of
- keep track of **where** you find your information and include the sites in your **sources** on the last page of the presentation

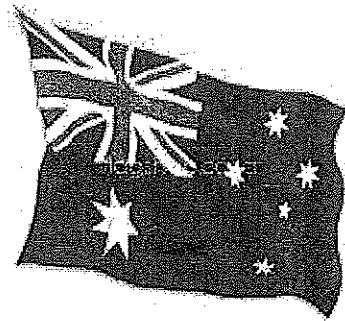

## 4. Create a **Power Point** presentation with pictures and keywords in English.

- keep the text on the screen to a minimum, only what the audience needs to understand your presentation

## 5. Decide **who** is going to say **what**, remember to take turns several times.

- no manuscript is allowed, only keywords in **Swedish**

## 6. Present in front of the class on the date set by your teacher!

**Good luck!**

(However, remember that luck has got nothing to do with the result!)
